

T&M Specialists awarded major technical support project on Mumbai Metro

HONG KONG, MARCH 15 2021 - T&M Specialists were delighted to be called upon by Normet HK to provide Technical Support on Mumbai Metro for the preparation & application of Tamseal 800. This is an application that we have a proven track record with and have already developed a history as a trusted partner & approved applicator for Normet

This project gives T&M the opportunity to become recognized in yet another country for delivering such Specialized Services on such a monumental project.

T&M Managing Director Louis Fraser will himself be heading to Mumbai in the next few days and, after having completed the necessary quarantine procedures, he will personally oversee all aspects of this important project.

ABOUT T&M SPECIALISTS

T&M Specialists, headquartered in Hong Kong with offices in Australia and the UK, is owned and operated by Louis Fraser, a certified EFNARC Nozzleman and Examiner with over 20 years international experience in Sprayed Concrete for both initial and permanent support.

T&M Specialists has built a reputation for successful projects around the world. The company is focused on Tunneling, Civil Construction, Geotechnical Investigation, and Manpower Services.
