

HONG KONG 27TH MARCH 2017.

## Press Release

### T&M ACQUIRE SPECIALIST TUNNELLING & MINING EQUIPMENT

Hong Kong based T&M Specialists have recently expanded their inventory of specialist tunnelling and mining equipment with the acquisition of

- 1 Normet Alpha 20
- 3 Normet Tornados
- 2 Liebherr 944s with Breakers, Buckets and Scabbler attachments
- 1 Liebherr 924 Compact with Breaker, Bucket, Scabbler, Trench Bucket and Lifting attachments
- 3 Powerking Rock Splitters with Excavator Mounting adaptors (ideal for hard rock excavation).

T&M see this as an important step in the future development of the company. “There are a lot of contracts coming up in Hong Kong and across Asia and Australia where such equipment, as well as the specialised workforce we can provide, will be needed” said Louis Fraser, Managing Director of T&M. “We see this as a good opportunity to further expand our role in serving the Tunnelling and Mining industry and we greatly welcome interest from others who wish to work with us.

T&M Specialists are currently working on projects in Hong Kong, the USA and Australia where they have recently formed a JV with a well established Sydney-based company providing similar services called Endacom who also boast a fleet of equipment:

- 2 Mayco Potenza’s
- 1 Jacon Maxijet
- 1 Jaycon S60T Truck Pump
- 1 JCB 5T Excavator
- 6 Utes
- 1 Truck
- 1 Mini Bus

This JV has been formed for working on major civil projects in Australia and allows us to widen both of our companies portfolios to maximize what we can offer to our clients and ensure all their needs can be met.
